

January 28, 2019

To Whom It May Concern:

I am writing to support Dr. Sviatlana Viarbitskaya's application to attend [The Adjoint School, ACT 2019](#). I have known Dr. Viarbitskaya since September 2016 when she was applying to the PhD programme. We accepted Dr. Viarbitskaya into the PhD programme in February 2017. Since this time, I have been her academic supervisor where I've worked closely with her research which focuses on applied Category Theory within the context of interdisciplinary studies. Dr. Viarbitskaya's research draws on her PhD in Physics (Stockholm) as well as recent developments within social theory, the arts, and philosophical mathematics.

She has attended Dr. Rocco Gangle's seminars on Category Theory and Formulations (Summer 2016, Summer 2017, and Summer 2018). She is part of a philosophical mathematics PhD research group within GCAS College Dublin and is on the faculty of [Mathematical Philosophy Department](#), which will launch an MA programme starting in the fall this year.

In short, I believe Dr. Viarbitskaya will contribute to the aims of The Adjoint School, ACT 2019.

I recommend her without reservation.

Yours Sincerely,

Creston C. Davis, PhD
Chancellor, [GCAS College Dublin](#)
